

MAY BE SCHEME  
TO OUST PINCHOTNew Conservation Society Is  
Being Organized.

SECRETARY SHIPP ENGAGED

Movement Begins to Appear Like  
Scheme to Take Conservation as a  
Propaganda Out of Former Chief  
Forester's Hands by Starting a Coun-  
ter Movement—White Is Friend of  
President Taft.Washington, Oct. 13.—It begins to  
look as if a movement was being en-  
gineered by friends of President Taft  
to take the work of national conserva-  
tion as a propaganda out of the con-  
trol of Gifford Pinchot and his friends  
by starting a counter-movement that  
is expected to overshadow the National  
Conservation association, of which  
Mr. Pinchot is president.The new movement is to grow out of  
the National Conservation congress,  
which meets annually and which has  
comprehended within its scope all of  
the various agencies, including the Na-  
tional Conservation association. At the  
Kansas City convention of the conser-  
vation congress J. B. White of Kansas  
City was chosen president. He is a  
wealthy lumberman, but he is said to  
be an ardent conservationist and also  
a friend of President Taft. Mr. White  
intends to devote some of his money  
to the work of increasing the activity  
and usefulness of the National Con-  
servation congress.In line with this idea he has prac-  
tically closed arrangements with  
Thomas R. Shipp, who has been act-  
ing in the dual capacity of secretary of  
the National Conservation congress  
and of the National Conservation as-  
sociation, which has its permanent  
headquarters in Washington, to devote  
his time exclusively to the conserva-  
tion congress.Some observers affect to see in the  
sudden effort of the national conser-  
vation congress to blossom into an  
active propaganda plan on the part  
of President Taft's friends to over-  
whelm completely Gifford Pinchot's  
association, or at least to see that the  
greatest agency for promoting national  
conservation is not put in an attitude  
of political hostility to President  
Taft.

## INJURED AT JOURNEY'S END

Off Indianapolis Street Car.Indianapolis, Oct. 13.—After safely  
having made alone the long sea and  
land journey from Inshagha, county  
Antrim, Ireland, to visit members of  
her family in this city, Jeanie Morris-  
on, a young Irish girl, was so seriously  
injured in a fall from a street car  
upon her arrival here that it is said  
her recovery is doubtful.Unconscious, she was taken to a  
hospital, and there was found by her  
anxiously searching relatives.

## NEAR RIOT AT GREGORY, S. D.

Police Use Their Guns in a Saloon  
Fight.Gregory, S. D., Oct. 13.—The first  
exciting incident of the homestead  
registration occurred when six men  
from Valentine, Neb., got into a fight  
with the bartenders at a saloon.By the time the police arrived spec-  
tators had taken a hand and it be-  
came necessary for the police to draw  
their guns to defend themselves while  
making arrests. Several of the com-  
batants were beaten.

## ATTACKED THE "INTERESTS"

Hampton-Columbian Magazine Can't  
Get Money and Fails.New York, Oct. 13.—An involuntary  
petition in bankruptcy was filed in  
United States district court against  
the Columbian-Stirling Publishing  
company, proprietor of the Hampton-  
Columbian magazine. Assets are val-  
ued at \$75,000.The publishers said recently that  
they could get no financial help since  
the magazine attacked the "interests."

Walsh Not on First Parole.

Leavenworth, Kan., Oct. 13.—In the  
first list of paroles granted by the fed-  
eral board of paroles at its last meet-  
ing the name of John R. Walsh, the  
Chicago banker, does not appear.  
Either ten or eleven men, at least  
two of whom were bankers, it is said,  
have been ordered released. Walsh's  
hearing came before that of some of  
the men who are to be paroled. As  
the cases are taken up numerically by  
the board this is thought to be an  
unfavorable sign for Walsh.FLOWERS GREET  
TAFT IN OREGONPresident's Car Loaded With  
Bounty of the State.

SPEAKS ON MANY SUBJECTS

Cheers Brought Forth by the Decla-  
ration, Made Several Times by the  
President During Course of the Day,  
That the Old Battleship Oregon  
Should Be First Vessel Through the  
Panama Canal.Ashland, Ore., Oct. 13.—His voice  
a bit husky from constant use, but  
strong, President Taft "spoke" his way  
down Willamette valley and across  
the state of Oregon. For hour after  
hour his train traveled a land that  
blossomed in flowers and fruit and  
the folk who came to the little towns  
where his train paused for a minute  
or two brought tributes of all sorts to  
the chief executive.With the California line only a few  
miles away the presidential train  
passed through Ashland and the presi-  
dent's car resembled the interior of  
a florist's and green grocer's shop.Mr. Taft spoke on many subjects.  
He declared several times that the old  
battleship Oregon should be the first  
vessel through the Panama canal, an  
announcement that always brought  
forth cheers.The apparent prosperity of the  
country through which he traveled led  
the president to make a new plea for  
the arbitration treaties.

Pleads for Arbitration.

"God has not given all this pros-  
perity and all these happy people—  
all these conditions in which life is  
so comfortable, in which we are mak-  
ing material progress never before  
dreamed of," said the president, "un-  
less he has intended to place a re-  
sponsibility on us to use these re-  
sources for the improvement of the  
entire world, and we shall be lacking  
in our appreciation of our duty unless  
we take the place in advance of the  
column and say to the poor common  
people and the plain people of all the  
world, and especially of Europe, where  
they are burdened down with arma-  
ments, 'We will lead you on and we  
will take every step possible to abol-  
ish that awful curse of war.'"

## M'GOVERN VIEWS THE HAVOC

Wisconsin Governor Visits Scene of  
Flood on Black River.Black River Falls, Wis., Oct. 13.—  
Governor McGovern arrived in the  
city to view the havoc wrought by  
the flood last Friday. He is accom-  
panied by experts from the university  
and will give what advice and aid he  
can to the citizens. Plans for the  
restoration of the business on safer  
ground have been held up pending the  
governor's arrival.Means of financing the city, which  
was heavily bonded before the flood;  
ways of feeding the people during the  
winter and measures for the safe-  
guarding of the dams are some of the  
problems which the governor and the  
members of his party will assist the  
citizens in solving. It has been sug-  
gested that the state come to the aid  
of the city, but in what way this  
could be done legally is not known.It was decided to build a huge cof-  
fer dam to force the water back into  
its old channel. This will be com-  
menced as soon as funds are pro-  
vided.Sanitary conditions in the city are  
not of the best. The marshal is mak-  
ing every effort to clean things up.

Mrs. Anna Boddy of Bloomington,  
who left her estate of \$30,000 for the  
benefit of students too poor to com-  
plete their course at the state univer-

Harmon Prepares Governors' Appeal  
Against Sanborn Decision.Columbus, O., Oct. 13.—Governor  
Judson Harmon has completed the  
first draft of the brief to be filed in  
the supreme court of the United  
States to contest the decision of Judge  
Sanborn in the so called Minnesota  
rate cases.Revision of the brief, it is expected,  
will require several weeks after which  
it will be inspected by the various  
members of the committee of govern-  
ors of which Mr. Harmon is chairman.  
The gist of the brief was decided upon  
several days ago at a conference held  
in St. Louis.It will probably be filed Jan. 8, if  
permission to file it is allowed by the  
supreme court.ANOTHER MURDER  
MYSTERY CLEAREDDygart Confesses Shooting John  
Hofstedt Near Poplar, Wis.Minneapolis, Oct. 13.—Having with-  
in only a few hours finished reciting  
the revolting details of the murder of  
Mrs. Walter Bolton and F. E. Rhodes  
on the Bolton farm near Wyoming,  
Anoka county, James C. Dygart, bet-  
ter known as "Jim," unconcernedly  
related to authorities of Superior,  
Wis., in the Minneapolis Central po-  
lice station the circumstances of the  
killing of John Hofstedt June 27 on  
his farm near Poplar, Wis.Dygart had been sought for many  
weeks as the murderer of John Hof-  
stedt and as soon as Sheriff Edward  
McKinnon of Douglas county, Wiscon-  
sin, heard of his arrest at Willmar  
and subsequent removal to Minneap-  
olis he, with District Attorney Arch-  
bald McKay, set out for Minneapolis.  
They went immediately to Central  
station, where they confronted the  
man. Without coercion, the author-  
ities say, "Jim" launched into his sec-  
ond glib confession in one day.

## PASSENGERS ARE RESCUED

Boat Runs Out on Dam and Panic  
Results.Louisville, Oct. 13.—Twenty-two per-  
sons, panic stricken, passengers and  
members of the crew, were taken  
from the Lena May, an Evansville  
steamer, which lodged on the dam  
headed for the chute on the Indiana  
side of the river, the captain intend-  
ing to go over the falls, as is the prac-  
tice when the river stage is sufficient.  
As the pilot was about to swing  
into the chute through the opening  
in the dam the boat failed to respond  
to the rudder and its momentum car-  
ried it over the top of the dam. Here  
it remained suspended, its bow far out  
over the eighteen-foot drop.

Farmers' Elevator company, operating  
seven elevators in Brown county, with  
headquarters at Verdon, was arrested  
on complaint of the directors  
charged with a shortage of \$40,000 in  
cash and 125,000 bushels of grain.  
He was placed under \$8,000 bonds,  
which he could not furnish, and was  
placed in jail.

her, on trial in East St. Louis, that  
she left her in 1898 to go with Mrs.  
Carters "Zaza" company.

edge.PRIMARY PLANS  
TO BE REJECTEDRepublican National Committee  
to Ignore Bourne.

WILL FOLLOW TAFT'S WISHES

Members of Committee Do Not Like  
Insurgency and Progressiveness Like  
That Practiced by Oregon Senator.  
Effect of Failure of Reciprocity Is  
Hard to Guess.

By ARTHUR W. DUNN.

Washington, Oct. 13.—[Special.]—It  
is already apparent that the Repub-  
lican national committee will not  
adopt the suggestion of the progres-  
sives and recommend presidential  
primary plans when they issue the  
call for the next national conven-  
tion. It is doubtful whether Senator  
Bourne really expected that result, al-  
though he is optimistic when he gets  
started in politics."There is no reason why that course  
should not be pursued," is his argu-  
ment, "and the committee ought to do  
it, because it is right." But the mem-  
bers of the committee will not agree  
with him. Moreover, the committee  
does not like insurgency and progres-  
siveness as practiced by Bourne and  
others. What is more to the point,  
the committee is a Taft committee  
and will do what it knows will please  
the president. He will not tell his  
wishes, but they will be known.

Can't Size It Up.

Senator McCumber of North Dako-  
ta, one of the most bitter opponents  
of Canadian reciprocity, is unable to  
size up the effect on the administra-  
tion of the failure of Canada to ac-  
cept the reciprocity bill. He knows that  
the people of his state are bitter over  
the measure, and he was sure that  
had it been successful it would have  
been disastrous to the administration,  
but he cannot say whether the people  
will continue the opposition which  
started with the extra session. He is  
not in a very hopeful mood, for his  
state is now controlled by the insur-  
gents, and they have not shown any  
desire to get in line for Taft if he  
should be renominated.

Congressional Peace Delegates.

Congressman Bartholdt of Missouri  
and Congressman Slayden of Texas  
are in Italy on a peace mission. They  
are delegates to a nation wide peace  
conference at Rome. Let us hope that  
they will get results. Why should  
they not turn loose at once and stop  
the Turkish-Italian war?The trouble with our peace conven-  
tions is that they work on paper.  
Whenever a nation gets ready for war  
it fights. Everybody believes that  
Italy had no cause for war with the  
weak Turkish nation, and it is well  
known that diplomatic negotiations  
would have prevented our war with  
Spain. But weak nations were in-  
volved, and the big countries sprang  
upon them because of the warlike spir-  
it. Bartholdt and Slayden have an op-  
portunity to convince the Italians of  
the great benefits of peace. By so do-  
ing they could make a record.

Starts Society Moving.

While the supreme court and the  
diplomatic corps continue to war as to  
which has precedence at formal func-  
tions, it is certain that the court starts  
society going in the national capital.  
The court assemblies the second Mon-  
day in October, and the members of  
the tribunal are in Washington before  
that date; consequently there begin  
the first movements in the social world  
in which the wives of the members of  
the court take a prominent part.  
While society in official life never gets  
real busy until late in the season, yet  
the returning officials and their wives  
begin a quiet round of small affairs  
early in the fall.

"Honored in the Breach."

There was a time when the only  
duty of the supreme court on the first  
day of the October term was to go to  
the White House and greet the presi-  
dent. For many years the presidents  
made it a point to be in Washington  
on that date in order to receive the  
court. That rarely happens since the  
"wanderlust" has taken possession of  
the presidents. Roosevelt was gener-  
ally away hunting, and Taft is some-  
where on the wing these October days,  
so the court does not pay its White  
House visit any more.

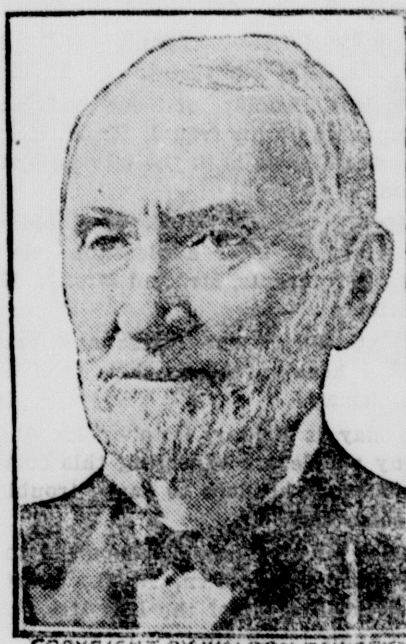

Place For Fairbanks.

It would be very fitting for Presi-  
dent Taft to make former Vice Presi-  
dent Fairbanks the chairman of the  
Canadian boundary commission in  
place of the late Senator Carter. Fair-  
banks was on one Canadian commis-  
sion and did a great deal to establish  
friendly relations between the coun-  
tries. He and Sir Wilfrid Laurier are  
very warm friends. It is doubtful if  
he would accept the place, but he  
would be a mighty good man for it.

The Love Feast Route.

With a big feed the West Virginia  
Republicans are going to make an ef-  
fort to get together. They have tried  
love feasts before and will try them  
again. It makes the average West  
Virginia Republican very sore to re-  
alize that only a few years ago his  
party had all the offices in the state, and  
as a result of one election the Demo-  
crats have two senators, four con-  
gressmen and the legislature. So they  
are going to meet and eat and try to  
retrieve their lost political prestige.First American Glass Factory.

## CANNON ATTACKS GOMPERS

Former Speaker Also Roasts the Pro-  
posed Recall System.Newman, Ill., Oct. 13.—Uncle Joe  
Cannon, in a speech here, attacked  
the recall system, Samuel Gompers  
and the Chicago newspapers, espe-  
cially the Tribune. At his own sug-  
gestion of having a recall in force and  
at the same time permitting the news-  
papers to criticize public officials he  
threw up his hands and exclaimed:  
"My God, what would happen? You  
would have more cowards in public  
office than you have now."The speech of Uncle Joe was lis-  
tened to attentively, but received little  
applause.BEET SUGAR DOES  
NOT NEED TARIFFIt Is a Wicked Tax, According  
to Arbuckle.New York, Oct. 13.—Just before  
sailing for Europe John Arbuckle, the  
sugar refiner and coffee manufacturer,  
issued a statement strongly attacking  
the tariff on raw sugar, declaring it  
to be a "wicked tax" for the benefit  
of the beet sugar interests. Mr. Ar-  
buckle said:"I propose to devote all my time and  
ability and all my strength to the  
abolition of all import duties on raw  
sugar, a most wicked tax on a food  
necessity of all our people. It taxes  
the man who works for a wage of a  
dollar a day as much as it taxes an  
Astor or Mr. Morgan or Mr. Rockefel-  
ler. Each eats, or at least needs, the  
same amount of sugar, and each pays,  
not according to his ability, but ac-  
cording to his needs, reversing an  
elementary rule of taxation.""If, as some one has said, sugar is  
the comfort of old age and the delight  
of youth, your Uncle Sam is engaged  
in taking candy from children, the  
height of meanness. The duty on raw  
sugar is 78 per cent of its value.""The duty which the United States  
exact on the importation of raw sugar  
holds up the price of the beet sugar,  
as well as the cane sugar, for the gen-  
tlemen who are manufacturing beet  
sugar exact from the public every pen-  
ny they can get. The beet companies  
have stated, as I am informed, that  
they can produce sugar at from 2½  
to 3 cents a pound.""In California the beet sugar is sold  
just under the price of the cane sugar  
and the cane sugar, although it is  
manufactured from Hawaiian raw sug-  
ar, which is admitted free of duty,  
costs the consumer the New York  
price of refined sugar, plus the freight.""In Utah the beet refiners exact  
the full price of the San Francisco  
market, plus the freight across the  
Rocky mountains. Everywhere the  
beet sugar manufacturer takes full  
advantage of the tariff tax and it re-  
sults that the people of the United  
States pay the tax to the government  
on the cane sugar and to the beet  
sugar barons on the beet sugar.""The saying to the American people  
on the sugar consumed last year  
if the tax were removed would amount  
to almost \$150,000,000.  
"The beneficiaries of the duty are  
planters of cane in the Hawaiian is-  
lands, Porto Rico, Louisiana and the  
Philippines and the manufacturers of  
domestic beet sugar. We are taxed  
for the benefit of Louisiana and the  
domestic beet sugar producers. The  
domestic beet sugar interests need no  
protection. The American Sugar Re-  
fining company has \$20,000,000 of beet  
sugar capital."

Pay Day Law Attacked.

Nevada, Mo., Oct. 13.—Briefs de-  
claring the new Missouri semi-monthly  
pay day law is in violation of the  
federal Constitution in that it de-  
prives them of their property without  
due process of law were filed before

Railway companies. A suit to test the  
law filed by the state is being tried.

## IT WARRANTS INVESTIGATION

So Says Senator Sutherland of Cost of  
Stephenson Election.Milwaukee, Oct. 13.—Argument as  
to whether the largeness of a candi-  
date's expenses for nomination to con-  
gress is to be taken was used wrong-  
fully occupied a great portion of the  
senatorial investigation of United  
States Senator Isaac Stephenson's  
election.After it had been testified that in-  
stead of \$107,793 Senator Stephenson  
might have expended \$320,000 to ad-  
vantage for nomination at the pri-  
maries in 1908, and after it was fig-  
ured out on a basis given that the  
four Republican candidates might  
have expended an aggregate of \$800,-  
000, Charles E. Littlefield, counsel for  
Senator Stephenson, raised the ques-  
tion whether the amount was to be  
considered evidence of guilt on the  
part of the senator, who is charged  
with bribery.Senator George Sutherland said he  
thought the amount spent by Senator  
Stephenson warranted an inquiry  
along the line that it was unreason-  
ably large.

## GAINS GREATLY IN TRANSIT

Six Thousand Tons of Java Sugar Nets  
Owners Great Profit.Philadelphia, Oct. 13.—The value of  
the cargo of sugar, which arrived here  
on the British steamship Kwara from  
Java, increased in value in transit  
more than \$107,000. The Kwara  
sailed from Java Aug. 1.When the 6,000 tons of sugar were  
put on board the value per 112 pounds  
were 14s 6d. Present quotations for  
Java sugar were 18s 6d. The advance  
of 4s in the price will net the owners  
\$107,140 over the original purchase  
price.The duty paid on the Kwara's car-  
go totaled \$180,000, or on a basis of  
\$30 per ton.

## MAY BE SCHEME TO OUST PINCHOT

New Conservation Society Is Being Organized.

SECRETARY SHIPP ENGAGED

Movement Begins to Appear Like Scheme to Take Conservation as a Propaganda Out of Former Chief Forester's Hands by Starting a Counter Movement—White Is Friend of President Taft.

Washington, Oct. 13.—It begins to look as if a movement was being engineered by friends of President Taft to take the work of national conservation as a propaganda out of the control of Gifford Pinchot and his friends by starting a counter-movement that is expected to overshadow the National Conservation association, of which Mr. Pinchot is president.

The new movement is to grow out of the National Conservation congress, which meets annually and which has comprehended within its scope all of the various agencies, including the National Conservation association. At the Kansas City convention of the conservation congress J. B. White of Kansas City was chosen president. He is a wealthy lumberman, but he is said to be an ardent conservationist and also a friend of President Taft. Mr. White intends to devote some of his money to the work of increasing the activity and usefulness of the National Conservation congress.

In line with this idea he has practically closed arrangements with Thomas R. Shipp, who has been acting in the dual capacity of secretary of the National Conservation congress and of the National Conservation association, which has its permanent headquarters in Washington, to devote his time exclusively to the conservation congress.

Some observers affect to see in the sudden effort of the national conservation congress to blossom into an active propaganda plan on the part of President Taft's friends to overwhelm completely Gifford Pinchot's association, or at least to see that the greatest agency for promoting national conservation is not put in an attitude of political hostility to President Taft.

## INJURED AT JOURNEY'S END

Girl Just Arrived From Ireland Falls Off Indianapolis Street Car.

Indianapolis, Oct. 13.—After safely having made alone the long sea and land journey from Inshaugh, county Antrim, Ireland, to visit members of her family in this city, Jeanie Morrison, a young Irish girl, was so seriously injured in a fall from a street car upon her arrival here that it is said her recovery is doubtful.

Unconscious, she was taken to a hospital, and there was found by her anxiously searching relatives.

## WOMEN WIN IN CALIFORNIA

2,877 Precincts Out of 3,121 in State Returns 2,051 Majority.

San Francisco, Oct. 13.—Complete official returns from 2,877 precincts out of 3,121 in the state give a majority for suffrage of 2,051.

All of the constitutional amendments voted on Tuesday have by the favorable decision of the voters been written into the constitution of the state. The proposed amendments were ratified in advance by the legislature as a preliminary to their submission to the people.

## NEAR RIOT AT GREGORY, S. D.

Police Use Their Guns in a Saloon Fight.

Gregory, S. D., Oct. 13.—The first exciting incident of the homestead registration occurred when six men from Valentine, Neb., got into a fight with the bartenders at a saloon.

By the time the police arrived spectators had taken a hand and it became necessary for the police to draw their guns to defend themselves while making arrests. Several of the combatants were beaten.

## ATTACKED THE "INTERESTS"

Hampton-Columbian Magazine Can't Get Money and Fails.

New York, Oct. 13.—An involuntary petition in bankruptcy was filed in United States district court against the Hampton-Columbian Publishing company, proprietor of the Hampton-Columbian magazine. Assets are valued at \$75,000.

The publishers said recently that they could get no financial help since the magazine attacked the "interests."

Walsh Not on First Parole.

Leavenworth, Kan., Oct. 13.—In the first list of paroles granted by the federal board of pardons at its last meeting the name of John R. Walsh, the Chicago banker, does not appear. Either ten or eleven men, at least two of whom were bankers, it is said, have been ordered released. Walsh's hearing came before that of some of the men who are to be paroled. As the cases are taken up numerically by the board this is thought to be an unfavorable sign for Walsh.

## FLOWERS GREET TAFT IN OREGON

President's Car Loaded With Bounty of the State.

## SPEAKS ON MANY SUBJECTS

Cheers Brought Forth by the Declaration, Made Several Times by the President During Course of the Day, That the Old Battleship Oregon Should Be First Vessel Through the Panama Canal.

Ashland, Ore., Oct. 13.—His voice a bit husky from constant use, but strong, President Taft "spoke" his way down Willamette valley and across the state of Oregon. For hour after hour his train traveled a land that blossomed in flowers and fruit and the folk who came to the little towns where his train paused for a minute or two brought tributes of all sorts to the chief executive.

With the California line only a few miles away the presidential train passed through Ashland and the president's car resembled the interior of a florist's and green grocer's shop.

Mr. Taft spoke on many subjects. He declared several times that the old battleship Oregon should be the first vessel through the Panama canal, an announcement that always brought forth cheers.

The apparent prosperity of the country through which he traveled led the president to make a new plea for the arbitration treaties.

## Pleads for Arbitration.

"God has not given all this prosperity and all these happy people—all these conditions in which life is so comfortable, in which we are making material progress never before dreamed of," said the president, "unless he has intended to place a responsibility on us to use these resources for the improvement of the entire world, and we shall be lacking in our appreciation of our duty unless we take the place in advance of the column and say to the poor common people and the plain people of all the world, and especially of Europe, where they are burdened down with armaments, 'We will lead you on and we will take every step possible to abolish that awful curse of war.'"

## M'GOVERN VIEWS THE HAVOC

Wisconsin Governor Visits Scene of Flood on Black River.

Black River Falls, Wis., Oct. 13.—Governor McGovern arrived in the city to view the havoc wrought by the flood last Friday. He is accompanied by experts from the university and will give what advice and aid he can to the citizens. Plans for the restoration of the business on safer ground have been held up pending the governor's arrival.

Means of financing the city, which was heavily bonded before the flood; ways of feeding the people during the winter and measures for the safeguarding of the dams are some of the problems which the governor and the members of his party will assist the citizens in solving. It has been suggested that the state come to the aid of the city, but in what way this could be done legally is not known.

It was decided to build a huge coffer dam to force the water back into its old channel. This will be commenced as soon as funds are provided.

Sanitary conditions in the city are not of the best. The marshal is making every effort to clean things up.

## KIDNAPPERS ARE GIVEN LIFE

Woman Accomplice Sentenced to Prison for Seven Years.

Chicago, Oct. 13.—Giuseppe Nicolisi and his brother Carmello were sentenced to life imprisonment after they had been found guilty by a jury of kidnapping five-year-old Angelo Marino Aug. 5. Mrs. Colagora Nicolisi, wife of Carmello, was sentenced to seven years in prison for complicity, and her mother, Mrs. Biagia Cutrona, was acquitted.

## HENRY FULLER IS STRICKEN

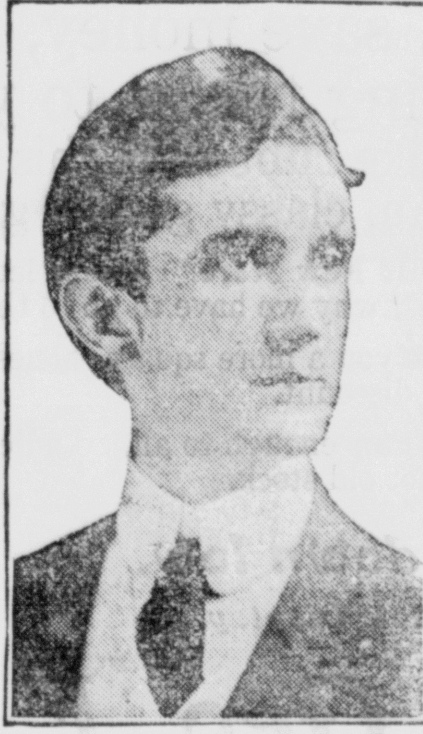

General Passenger Traffic Manager of Chesapeake Road Is Dead.

## Estate for Poor Students.

Bloomington, Ill., Oct. 13.—The state supreme court has upheld the will of Mrs. Anna Boody of Bloomington, who left her estate of \$30,000 for the benefit of students at the state university. Her son, who was ignored in the will, was beaten in every court when he attempted to break the will.

## DRAFTS RATE CASE BRIEF

Harmon Prepares Governors' Appeal Against Sanborn Decision.

Columbus, O., Oct. 13.—Governor Judson Harmon has completed the first draft of the brief to be filed in the supreme court of the United States to contest the decision of Judge Sanborn in the so called Minnesota rate cases.

Revision of the brief, it is expected, will require several weeks after which it will be inspected by the various members of the committee of governors of which Mr. Harmon is chairman. The gist of the brief was decided upon several days ago at a conference held in St. Louis.

It will probably be filed Jan. 8, if permission to file it is allowed by the supreme court.

## ANOTHER MURDER MYSTERY CLEARED

Dygart Confesses Shooting John Hofstedt Near Poplar, Wis.

Minneapolis, Oct. 13.—Having within only a few hours finished reciting the revolting details of the murder of Mrs. Walter Bolton and F. E. Rhodes on the Bolton farm near Wyoming, Anoka county, James C. Dygart, better known as "Jim," unconcernedly related to authorities of Superior, Wis., in the Minneapolis Central police station the circumstances of the killing of John Hofstedt June 27 on his farm near Poplar, Wis.

Dygart had been sought for many weeks as the murderer of John Hofstedt and as soon as Sheriff Edward McKinnon of Douglas county, Wisconsin, heard of his arrest at Willmar, and subsequent removal to Minneapolis he, with District Attorney Archibald McKay, set out for Minneapolis. They went immediately to Central station, where they confronted the man. "Without coercion, the author lies say," "Jim" launched into his second grisly confession in one day.

## PASSENGERS ARE RESCUED

Boat Runs Out on Dam and Panic Results.

Louisville, Oct. 13.—Twenty-two persons, panic stricken, passengers and members of the crew, were taken from the Lena May, an Evansville steamboat, which lodged on the dam at the head of the falls in the Ohio river. The water is high and the boat headed for the chute on the Indiana side of the river, the captain intending to go over the falls, as is the practice when the river stage is sufficient. As the pilot was about to swing into the chute through the opening in the dam the boat failed to respond to the rudder and its momentum carried it over the top of the dam. Here it remained suspended, its bow far out over the eighteen-foot drop.

## EMBEZZLEMENT THE CHARGE

Manager of South Dakota Elevator Company Said to Be Short.

Aberdeen, S. D., Oct. 13.—W. B. Roby, manager of the South Dakota Farmers' Elevator company, operating seven elevators in Brown county, with headquarters at Verdon, was arrested on complaint of the directors charged with a shortage of \$40,000 in cash and 125,000 bushels of grain. He was placed under \$5,000 bonds, which he could not furnish, and was placed in jail.

## DID NOT KNOW OF ACTION

Actress, Seventy Years Old, Seeks to Have Divorce Annulled.

St. Louis, Oct. 13.—Kate Claxton, once an emotional actress of national fame, declared in her suit to annul Charles A. Stevenson's divorce from her, on trial in East St. Louis, that he left her in 1898 to go with Mrs. Carter's "Zaza" company.

Stevenson obtained the divorce in East St. Louis in 1901 and his wife charges that it was without her knowledge.

## PRIMARY PLANS TO BE REJECTED

Republican National Committee to Ignore Bourne.

## WILL FOLLOW TAFT'S WISHES

Members of Committee Do Not Like Insurgency and Progressiveness Like That Practiced by Oregon Senator. Effect of Failure of Reciprocity Is Hard to Guess.

By ARTHUR W. DUNN.

Washington, Oct. 13.—[Special.]—It is already apparent that the Republican national committee will not adopt the suggestion of the progressives and recommend presidential preference primaries when they issue the call for the next national convention. It is doubtful whether Senator Bourne really expected that result, although he is optimistic when he gets started in politics.

"There is no reason why that course should not be pursued," is his argument, "and the committee ought to do it, because it is right." But the members of the committee will not agree with him. Moreover, the committee does not like insurgency and progressiveness as practiced by Bourne and others. What is more to the point, the committee is a Taft committee and will do what it knows will please the president. He will not tell his wishes, but they will be known.

## Can't Size It Up.

Senator McCumber of North Dakota, one of the most bitter opponents of Canadian reciprocity, is unable to size up the effect on the administration of the failure of Canada to accept the reciprocity bill. He knows that the people of his state are bitter over the measure, and he was sure that had it been successful it would have been disastrous to the administration, but he cannot say whether the people will continue the opposition which started with the extra session. He is not in a very hopeful mood, for his state is now controlled by the insurgents, and they have not shown any desire to get in line for Taft if he should be re-nominated.

## Congressional Peace Delegates.

Congressman Bartholdt of Missouri and Congressman Slayden of Texas are in Italy on a peace mission. They are delegates to a nation wide peace conference at Rome. Let us hope that they will get results. Why should they not turn loose at once and stop the Turkish-Italian war?

The trouble with our peace conventions is that they work on paper. Whenever a nation gets ready for war it fights. Everybody believes that Italy had no cause for war with the weak Turkish nation, and it is well known that diplomatic negotiations would have prevented our war with Spain. But weak nations were involved, and the big countries sprang upon them because of the warlike spirit. Bartholdt and Slayden have an opportunity to convince the Italians of the great benefits of peace. By so doing they could make a record.

## Starts Society Moving.

While the supreme court and the diplomatic corps continue to war as to which has precedence at formal functions, it is certain that the court starts society going in the national capital. The court assembles the second Monday in October, and the members of the tribunal are in Washington before that date; consequently there begin the first movements in the social world in which the wives of the members of the court take a prominent part. While society in official life never gets real busy until late in the season, yet the returning officials and their wives begin a quiet round of small affairs early in the fall.

## "Honored in the Breach."

There was a time when the only duty of the supreme court on the first day of the October term was to go to the White House and greet the president. For many years the presidents made it a point to be in Washington on that date in order to receive the court. That rarely happens since the "wanderlust" has taken possession of the presidents. Roosevelt was generally away hunting, and Taft is somewhere on the wing these October days, so the court does not pay its White House visit any more.

## Place For Fairbanks.

It would be very fitting for President Taft to make former Vice President Fairbanks the chairman of the Canadian boundary commission in place of the late Senator Carter. Fairbanks was on one Canadian commission and did a great deal to establish friendly relations between the countries. He and Sir Wilfrid Laurier are very warm friends. It is doubtful if he would accept the place, but he would be a mighty good man for it.

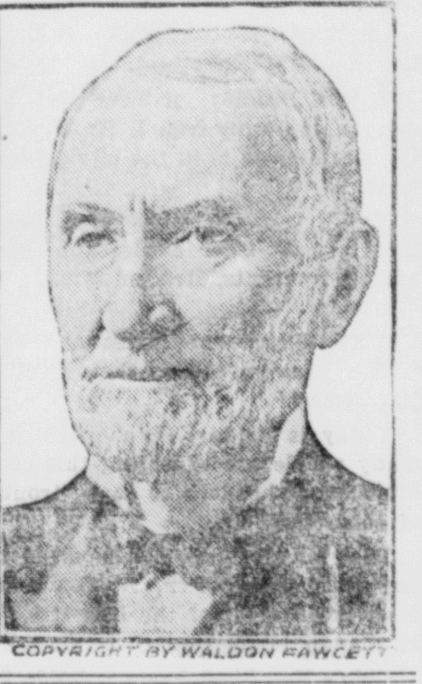

## The Love Feast Route.

With a big feed the West Virginia Republicans are going to make an effort to get together. They have tried love feasts before and will try them again. It makes the average West Virginia Republican very sore to realize that only a few years ago his party had all the offices in the state, and as a result of one election the Democrats have two senators, four congressmen and the legislature. So they are going to meet and eat and try to retrieve their lost political prestige.

JOSEPH G. CANNON.  
Assails Samuel Gompers, the Recall and Newspapers.

## CANNON ATTACKS GOMPERS

Former Speaker Also Roasts the Proposed Recall System.

Newman, Ill., Oct. 13.—Uncle Joe Cannon, in a speech here, attacked the recall system, Samuel Gompers and the Chicago newspapers, especially the Tribune. At his own suggestion of having a recall in force and at the same time permitting the newspapers to criticize public officials he threw up his hands and exclaimed: "My God, what would happen? You would have more cowards in public office than you have now."

The speech of Uncle Joe was listened to attentively, but received little applause.

## BEET SUGAR DOES NOT NEED TARIFF

It Is a Wicked Tax, According to Arbuckle.

New York, Oct. 13.—Just before sailing for Europe John Arbuckle, the sugar refiner and coffee manufacturer, issued a statement strongly attacking the tariff on raw sugar, declaring it to be a "wicked tax" for the benefit of the beet sugar interests. Mr. Arbuckle said:

"I propose to devote all my time and ability and all my strength to the abolition of all import duties on raw sugar, a most wicked tax on a food necessity of all our people. It taxes the man who works for a wage of a dollar a day as much as it taxes an Astor or Mr. Morgan or Mr. Rockefeller. Each eats, or at least needs, the same amount of sugar, and each pays, not according to his ability, but according to his needs, reversing an elemental rule of taxation.

"If, as some one has said, sugar is the comfort of old age and the delight of youth, your Uncle Sam is engaged in taking candy from children, the height of meanness. The duty on raw sugar is 78 per cent of its value.

"The duty which the United States exacts on the importation of raw sugar holds up the price of the beet sugar, as well as the cane sugar, for the gentlemen who are manufacturing beet sugar exact from the public every penny they can get. The beet companies have stated, as I am informed, that they can produce sugar at from 2 1/2 to 3 cents a pound.

"In California the beet sugar is sold just under the price of the cane sugar and the cane sugar, although it is manufactured from Hawaiian raw sugar, which is admitted free of duty, costs the consumer the New York price of refined sugar, plus the freight.

"In Utah the beet refiners exact the full price of the San Francisco market, plus the freight across the Rocky mountains. Everywhere the beet sugar manufacturer takes full advantage of the tariff tax and it results that the people of the United States pay the tax to the government on the cane sugar and to the beet sugar barons on the beet sugar.

"The saving to the American people on the sugar consumed last year if the tax were removed would amount to almost \$150,000,000.

"The beneficiaries of the duty are planters of cane in the Hawaiian islands, Porto Rico, Louisiana and the Philippines and the manufacturers of domestic beet sugar. We are taxed for the benefit of Louisiana and the domestic beet sugar producers. The domestic beet sugar interests need no protection. The American Sugar Refining company has \$20,000,000 of beet sugar capital."

## Pay Day Law Attacked.

Nevada, Mo., Oct. 13.—Briefs declaring the new Missouri semi-monthly pay day law is in violation of the federal Constitution in that it deprives them of their property without due process of law were filed before Judge B. C. Thurman in the circuit court here by the Missouri, Kansas and Texas and the Missouri Pacific Railway companies. A suit to test the law filed by the state is being tried.

## Eighteen Killed by Storm.

Nogales, Ariz., Oct. 13.—Delayed advice were received that eighteen persons were killed by the storm which swept the western coast of Sonora, Mexico, a week ago. One mining property suffered damage estimated at \$2,000,000.

## MAKE REPUBLIC AIM OF REBELS

### IT WARRANTS INVESTIGATION

So Says Senator Sutherland of Cost of Stephenson Election.

Milwaukee, Oct. 13.—Argument as to whether the largeness of a candidate's expenses for nomination to congress is to be taken was used wrongfully occupied a great portion of the senatorial investigation of United States Senator Isaac Stephenson's election.

After it had been testified that instead of \$107,793 Senator Stephenson might have expended \$220,000 to advantage for nomination at the primaries in 1908, and after it was figured out on a basis given that the four Republican candidates might have expended an aggregate of \$800,000, Charles E. Littlefield, counsel for Senator Stephenson, raised the question whether the amount was to be considered evidence of guilt on the part of the senator, who is charged with bribery.

Senator George Sutherland said he thought the amount spent by Senator Stephenson warranted an inquiry along the line that it was unreasonably large.

### GAINS GREATLY IN TRANSIT

Six Thousand Tons of Java Sugar Nets Owners Great Profit.

Philadelphia, Oct. 13.—The value of the cargo of sugar, which arrived here on the British steamship Kwara from Java, increased in value in transit more than \$107,000. The Kwara sailed from Java Aug. 1.

When the 6,000 tons of sugar were put on board the value per 112 pounds were 14s 6d. Present quotations for Java sugar were 18s 6d. The advance of 4s in the price will net the owners \$107,140 over the original purchase price.

The duty paid on the Kwara's cargo totaled \$180,000, or on a basis of \$30 per ton.

## Revolution in China Would Overthrow the Empire.

### TO PROTECT ALL FOREIGNERS

Revolt Has Been Planned for Months and Has for a Leader the Noted Exiled Revolutionist, Dr. Sun Yat Sen, Who Will Be Made President Unless Plans Miscarry.

Hankow, Oct. 13.—The revolution which has been hanging over China for months and of which the rising in the province of Szecheng was only a small part, has begun in earnest and is a concerted movement to take the empire and declare a republic.

The noted exiled revolutionist, Dr. Sun Yat Sen, leader of the anti-Manchu party, if the plans do not miscarry is to be elected president. He was the delegate of the revolutionary party to the United States in 1910, and is believed during that tour to have made arrangements for financing the movement.

Sun Yu, a brother of Dr. Sun Yat Sen, who is now in Hankow, has been elected president of the provisional assembly, and Tang Hua Lung, the retiring president of the assembly and a noted scholar has been elected governor of Hupeh.

The whole assembly has seceded from the imperial government. The rebels, who are well organized, have confiscated the local treasuries and banks and are issuing their own paper money, redeeming the government notes with this, as foreign banks are refusing government notes.

### Soldiers Join Mutiny.

Thousands of soldiers have joined the mutiny in Hupeh. Many Manchus have been killed and the terrified people are fleeing from the cities into the country, carrying their belongings.

The prisons have been opened and criminals liberated. There has been fighting in the streets, but stringent orders have been issued that the lives and property of foreigners shall be respected.

An American expedition, which was dispatched from Hankow to Wuchang to aid the missionaries there, returned here with all the missionaries except Miss R. A. Kemp of the Episcopal mission, members of the Roman Catholic mission, including the sisters and the London mission, who declined to depart.

There was a brief exchange of shots between the Wuchang forces and a loyal Chinese cruiser. The firing ceased after British and Japanese officials had protested that it endangered the foreign concessions.

The rebels may now be said to be in control of Wuchang, Hankow and Hanyang.

### HOUSE OF GOVERNORS RIGHT

Resolution Passed by Railroad Commissioners in Endorsement.

Washington, Oct. 13.—After much debate as to whether such action would be considered "an insult to the supreme court," the convention of state railroad commissioners, in convention here, adopted a modified resolution, "backing up" the House of Governors in its recent action in the Minnesota rate cases, now on appeal before the supreme court.

The convention of railroad commissioners approved the decision of the House of Governors to file a brief in behalf of Minnesota's contentions and expressed sympathy with the views of the recent assemblage of state executives. The convention, however, would not accept the original resolution, which declared in effect that the decision of the lower court was an interference with the right of the states to regulate railroad rates within their borders.

## A BUSY TIME OF THE YEAR

Most Women Are Now Busy With Their Fall House Cleaning—Thus

### THEY ARE DOING THEIR DUTY

What's More—Some of Them Are Ruining Their Health

Just before winter sets in and if the weather will permit it, there is one task which every housewife is in duty-bound to do.

That task is the cleaning of the home and the preparation for the coming winter. A great many of the women in the city are at work now or have completed the drudgery of fall house cleaning.

Those who have completed the task think that they have fulfilled their duty, while in fact they have acted in opposition to their duty. They have knowingly and unhesitatingly made themselves sick by over working.

We say they have not done their duty, for this over working can be done away with by washing the curtains and other articles which are made of wool, linen and cotton, in the Peerless Steam Washer. Inquire at 419 Front street. 11011

After exposure and when you feel a cold coming on, take Foley's Honey and Tar compound. It checks and relieves. Use no substitutes. The genuine is in a yellow package always. For sale by all druggists.

**Called His Bluff.**  
An irascible guest had been sitting at the hotel table about three minutes and no waiter had come to him, and when he caught the eye of the head waiter he called him up. "Here," he said ill naturedly, "I've been waiting for half an hour for somebody to take my order, and nobody has come near! Am I going to be waited on?"  
"Certainly, sir."  
"Then I want to know why I have been kept waiting a half hour!"  
"Well, sir," explained the waiter,

"the man who was on duty when you came in, half an hour ago, has left and won't be back until tomorrow, and I only came on duty ten minutes ago, so I don't know the reason."  
The guest knew he was being made fun of, but he also knew that he had been telling a falsehood, so he said no more.—St. Louis Globe Democrat.

**Brain Weights.**  
The average weight of a man's brain is forty-six ounces, but it varies largely in different individuals. Usually it is about one-thirtieth of the body's weight. In quadrupeds the relative weight is remarkably less than it is in human beings. It is one-one hundred and twentieth in dogs, one-four hundred and fiftieth in horses, one-seven hundred and fiftieth in sheep and one-eight hundredth in the ox, thus indicating a direct relation between weight of brain and intelligence. The animals named being ranged in the order of their mental capacity and docility.

### Called His Bluff.

An irascible guest had been sitting at the hotel table about three minutes and no waiter had come to him, and when he caught the eye of the head waiter he called him up. "Here," he said ill naturedly, "I've been waiting for half an hour for somebody to take my order, and nobody has come near! Am I going to be waited on?"

"Certainly, sir,"  
"Then I want to know why I have been kept waiting a half hour?"  
"Well, sir," explained the waiter,

"the man who was on duty when you came in, half an hour ago, has left and I won't be back until tomorrow, and I only came on duty ten minutes ago, so I don't know the reason."

The guest knew he was being made fun of, but he also knew that he had been telling a falsehood, so he said no more.—St. Louis Globe Democrat.

### Brain Weights.

The average weight of a man's brain is forty-six ounces, but it varies largely in different individuals. Usually

it is about one-thirtieth of the body's weight. In quadrupeds the relative weight is remarkably less than it is in human beings. It is one-one hundred and twentieth in dogs, one-four hundred and fiftieth in horses, one seven hundred and fiftieth in sheep and one-eight hundredth in the ox, thus indicating a direct relation between weight of brain and intelligence. The animals named being ranged in the order of their mental capacity and docility.

HIGH SCHOOL NOTES

The girls debate on woman suffrage is to be postponed until Friday, Oct. 20, the occasion being the opening of the new auditorium. The debaters are working industriously and no doubt the present day question of Woman's rights will be hotly disputed.

The following will take part: Affirmative, Ethel Angel, Kathleen Hawkins, Eleanor Baker. Negative, Caroline Barron, Cecil Miller, Francis Funk.

The class of 1911 have left us a beautiful monument in the shape of a picture, "The Holy Trail." The picture is about twelve feet long by four feet wide and fits well into one of the four spaces in the front wall of the room. This, together with Sir Galahad presented several years ago, completes the decoration for the east half of the front of the assembly room. We hope that in the near future we may be able to secure some suitable decorations for the west side and thus complete the front of the room.

If Harry is Scotch, is Clyde Dutch? Many parents and in fact many pupils, question the value of a Latin course in high school. Perhaps this course is more disputed than the commercial. Here are a few quotations that will be of interest:

"Translation may be one of the best means of improving the style and stimulating the powers of expression. It has been so used by famous men. Rufus Choate, for example, whose command of language was unsurpassed, made a point of spending an hour or more every day in rendering into English passages from another tongue. "Translation," he said, "should be pursued to bring to the mind and to employ all the words you already own and to tax and torment invention and discovery and the very deepest memory for additional rich and admirably expressive words."

"Latin no less than mathematics, requires much careful application and tends to develop exactness of thought."

Prof. Mitchell Carroll says: "The aim of education is not to make a living, but to make a life, not the accumulation of material wealth, but the growth of the spirit. Next to religion nothing contributes so much to this end as the study of Greek and Roman literature and art."

The aid that knowledge of the Latin language contributes to one's vocabulary is boundless. A large percent of the English words are derived from Latin. With a fair knowledge of Latin suffixes and prefixes and verb items, one could estimate the meaning of many an unfamiliar word.

Rev. A. E. Andre, who was here lecturing, graciously consented to talk to the high school pupils Monday afternoon. His talk was indeed interesting and he carried us into the world with his weird descriptions. He did many disagreeable as well as agreeable facts about those people missionaries undoubtedly must undergo seemingly impossible conditions.

Mr. Andre gave us examples of Tibetan and Chinese and language.

John Adams from Aitkin, has entered in our school as a sophomore. He is a girl interested in basket ball, a meeting last night and definitions were made for equipment. Enter girls with Miss Mahlum's raised plenty of money for that of the gymnasium last summer. I have suits all alike and practice as soon as possible.

Yell: Squash 'em! Squash 'em! Squash 'em! Baw! Baw! Baw! his Beak and break his jaw. Bust his nose— Rip his clothes, the pieces, Rah! Rah! Rah!

Dahlman, "Cowboy" Mayor Omaha, "Throws the Lariat" Jas. C. Dahlman started his as a cowboy, and is at present in Omaha, and has the following: Sheriff of Dawes Co., terms; Mayor of Chadron, terms; Democratic National Convention, eight years; Mayor of Omaha, six years, and in 1910 candidate for governor of Nebraska. Writing to Foley & Co., Chicago, he says: "I have taken Foley Kidney Pills and they have given me great deal of relief so I cheerfully recommend them." Yours truly (Signed) James C. Dahlman.

ECCENTRIC BETTING.

Curious Wagers Recorded at White's Club in London.

The betting book of White's club in London contains the record of some extraordinary wagers. The idle gentlemen of 100 years ago could give their successors of today sundry hints on eccentric betting. Here are facsimiles of some of the records. One reads:

"Mr. Methuen bets Colonel Stanhope 10 guineas to 1 that a worthy baronet—understood between them—does not from necessity part with his gold fee pails before this day twelvemonth. The fee pails being found at a pawnbroker's will not entitle Colonel Stanhope to receive his 10 guineas."

This peculiar wager was made in 1613, and another one, recorded the same year at White's, may have reference to the same hard up personage. It reads:

"Lord Alvanley bets Sir Joseph Copps 5 guineas that a certain baronet derided between them—is very embarrassed in circumstances three years from the date hereof. If his bills is dishonored or he is obliged to borrow small change of the chairmen or waiters, Sir Joseph is to be reckoned to lose."

AN OLD SPANISH CUSTOM.

Police Still Call Out the Hours of the Night at Los Arenas.

Most of the ancient Spanish customs have long since died out, but one is still maintained here, in the village of Los Arenas, near Bilbao, and all light sleepers will, I think, be with me in saying that this could be very well done without, says the British consul at Bilbao.

The custom consists of the "serenos" (night policemen) calling out the hours and state of the weather every night, commencing at midnight and finishing at 5 o'clock a. m. I said "calling," but shouting would really be more correct. One is roused by one of these loud voiced policemen singing out beneath the bedroom window, "Las doce, sereno!" ("Twelve o'clock, fine weather.")

By 4 o'clock the weather has probably changed, and it may be raining

and blowing a regular hurricane, a state of things in itself enough to wake any man up. Yet you are cheerfully informed of the fact by the policeman shouting, "Las cuatro, sereno!" ("Four o'clock, raining.") Many inhabitants have tried in vain to get this stopped, for no useful purpose whatever is served by the custom, except, perhaps, to the Spanish Bill Sikes, who considers it a very useful guide to the whereabouts of the police.

## JUST ONE DEER FOR A HUNTER

Executive Agent H. A. Rider, of State Game and Fish Commission, Explains Law

IN LETTER WRITTEN I. U. WHITE

"Where There is a Conflict in the Law, the Law Last Passed or Approved Would Govern"

Hunters have carefully read the laws on hunting in this state and have found a section, No. 33 which mentioned two deer and parts thereof and section No. 35 which stated that a hunter was allowed to kill but one deer and the apparent inconsistency between these sections led many deer hunters to wonder whether one was allowed to kill one or two deer this season.

There are over 300 hunters in this county. Some of these get the game and others hunt year after year and come back with nothing. Nevertheless each man wants the burning question settled definitely as to how many the law allows him to kill.

I. U. White, who is considered an authority on hunting because he sells so many guns and so much ammunition, wrote H. A. Rider about the matter at the same that the Dispatch asked the attorney general for a construction of the law. The executive agent of the state game and fish commission states definitely that one deer is all that each hunter may legally kill in the season. Mr. Rider's letter to Mr. White follows:

"Replying to yours of October 10th will say that Chap. 93, general laws of 1911 amended Sec. 33, Chap. 344, general laws of 1905 in a minor particular, relating to the having in possession of venison, but did not amend or touch on the number of deer a man is allowed to kill. This section reads—'shall not have more than two deer.' This act passed Apr. 7,

"Chap. 373, General Laws of 1911, amended Sec. 34, Chap. 344, general laws of 1905, which pertains to issuing licenses for big game. This act amended fixes the number of deer that can be legally killed, at one. This act was approved Apr. 20; and according to an opinion rendered by the attorney general where there is a conflict in the law, the law last passed or approved, would govern.

"Consequently as the law now stands, a man can only legally kill one deer."

## TO HEAR TESTIMONY

Deerwood Village Council Has Set November 7 as the Date of Hearing Regarding Street

At the recent session of the Deerwood village council a resolution was adopted reciting the fact that a street 66 feet in width, has been duly opened up by the council through and over the northerly 66 feet of lots 5 and 12 of block 6 of the original plat of Deerwood, thence along the southerly side of block 15 to the county road at the west end of outlot 1, in such manner that half of the street is taken from block 15 and the other half from the property adjacent thereto on the south and that at 8 P. M. on November 7, the village council will hear the testimony of all persons interested or affected and ascertain the amount of the special benefits accruing to any property within the village by reason of the opening of the street.

## Football Saturday

The first big football game of the season will be staged at the Koering grounds tomorrow afternoon, when the high school team meets the team representing the Staples high school.

The locals have been practicing exceptionally hard this week and are in the pink of condition, to put up a clean and hard game. The team has been handicapped somewhat by the lack of games, but from now on until the last of November, games have been scheduled for every Saturday. Although the team has not played any out side games they have been practicing diligently since the first of the season, and should be a foremost contestant for the high school championship of northern Minnesota.

Fred Sanborn, the coach of the famous 1908 team, has been out several nights and has inspired the team with that hurry-up spirit so characteristic in 1908. Coach Calland is also out every night and is giving the boys some valuable assistance. As yet not much is known of the Staples team except that they defeated the Royalton team last Saturday. The coaches have not decided definitely on the line up for tomorrow's game, but expect to give every man in the squad a try-out.

## The Children's Hour

Miss Edith Bohle, our visiting nurse, will tell stories at the public library hall tomorrow afternoon at 2:30. Our patronesses and all interested as well as the children are cordially invited to attend.

The sewing is in charge of Mrs. J. A. Thabes, assisted by Mrs. J. A. Wilson and Mrs. George Warner. The girls are sewing quilts and garments for the poor of the city who need our help. The kindergarten class will be in charge of Mrs. C. L. Burnett.

## RELIGIOUS CENSUS WILL BE TAKEN

PRES. LOCKER GAVE AN ADDRESS

"Each Church Should Know the Number of its Adherents and Those Detached From any Church"

A fine audience was on hand last evening at the First Methodist Episcopal church to listen to the address of A. M. Locker, state president of the Sunday school association, on the general progress of Sunday school work throughout Minnesota and the benefits to be derived from the taking of a religious census, considerable enthusiasm being stirred up by the message.

Said the speaker in part: "What each church should know if it would have some objective in its work, is the number of its adherents and those who are detached from any church. This is not purely a religious effort, but a desire on the part of Christian workers to know for themselves the exact ratio of church attendance in the communities in which they live, and to give to the pastors of all churches some facts which they cannot of themselves find out. We took one in Mankato some time ago, and in all the thousands in that city we found but 95 with no church preference. As the facts are gathered they are given to the clergymen of each and every denomination so that they know the exact standing of the denomination."

Mr. Locker had a very large map of the city set up in the church and detailed the work as it is generally carried out with much advice to the visitors who will be selected to do the work in the various wards of the city.

A large number of the clergymen met in consultation with Mr. Locker yesterday afternoon and much interest was manifested in the movement proposed.

The workers of the various churches in the city have set apart Tuesday, October 24, as the date of the census taking. The work is expected to be done in half a day and 250 ladies and gentlemen have volunteered their services to visit the people of Brainerd and acquire the desired information. It will be the first time this has been done in this manner in Brainerd and the figures and other statistics obtained will be of great value.

## She's A Winner

The tailored-to-order girl always is. She has that distinction—that individuality—that fashionable appearance that only man-tailored-to-order clothes can give.

For by means of our exclusive arrangement with the famous American Ladies Tailoring Company of Chicago you now have the opportunity of obtaining the same identical styles—the very creations themselves, right here in your own town that all fashionable women in the big cities are now wearing.

Skirts: \$ 5 and up

And, mind you, all are made-to-order—TO FIT YOUR INDIVIDUAL FIGURE. So satisfaction is absolutely guaranteed.

management of the International Consolidated Sales Co., of New York, Chicago and Minneapolis, high-grade merchandise brokers, known as the greatest bargain givers in the northwest.

L. M. Koop informs us that the prices quoted on her stock are in a great many instances less than she could purchase the same at the factory in case lots. Her reason for making this great sacrifice sale, is that she is heavily overstocked, and desires to raise a large amount of money quickly, so she considers it good business judgment to cut loose and unload the entire stock right now for whatever it will bring, when the people are in need of the goods, and she has therefore inaugurated this mighty closing out sale of her spring and summer stock in order to convert every dollars worth of goods into cash, no matter how great the loss.

The International Consolidated Sales Co. is now in charge of the entire store, re-arranging and marking down at the same time at practically their own prices, as L. M. Koop's instructions to them were to close out these lines, even to the bare walls, no matter how great the loss.

This will give the people of Brainerd and surrounding country the greatest bargains ever placed before the public in the history of Brainerd merchandising. This sale will surely prove to be a great boon to the people, who are never slow at taking advantage of an opportunity such as this mighty reduction stock sale will afford, and from the large number of people inquiring about the sale, and waiting for the opening day, it speaks of a record breaking business.

L. M. Koop has never carried any except the most reliable, dependable merchandise, and we expect to see hundreds of people in attendance daily during this great sale, as the people realize when they can purchase high grade merchandise at less than manufacturers cost, it is high time they grasped the chance. It is safe to say a sale such as this comes but once in a lifetime, and the public will no doubt buy out the combined stock quickly.

A large force of extra sales people

are in attendance, to be able to serve all quickly, and as it is there will be rare bargains offered, we expect to see this store a Mecca for hundreds of bargain seekers during the next ten days. The International Consolidated Sales Co. tells us the sale will positively close on Saturday, Oct. 28th, 1911.

## "Uncle Tom's Cabin"

We are to witness a grand revival of that famous old historical play, "Uncle Tom's Cabin" as produced by Al. W. Martin's mammoth company at the Park opera house, Tuesday, Oct. 17. It is doubtful if in earlier days when "Uncle Tom's Cabin" occupied the enviable position of the most popular play of the day, and when it was the novelty of the dramatic stage, that it ever received the

attention so liberally bestowed upon as in Mr. Martin's revival.

It surely has never had the benefit of the scenic environment with which he has sumptuously provided it. The stage settings and photo pictures are noteworthy and veritable triumphs of the scenic artist's skill, while the company is all that talent and careful direction can produce. Sale of seats at box office of opera house Monday, Oct. 16, at 10 a. m.

## JUST ONE DEER FOR A HUNTER

Executive Agent H. A. Rider, of State Game and Fish Commission, Explains Law

IN LETTER WRITTEN I. U. WHITE

"Where There is a Conflict in the Law, the Law Last Passed or Approved Would Govern"

Hunters have carefully read the laws on hunting in this state and have found a section, No. 33 which mentioned two deer and parts thereof and section No. 35 which stated that a hunter was allowed to kill but one deer and the apparent inconsistency between these sections led many deer hunters to wonder whether one was allowed to kill one or two deer this season.

There are over 300 hunters in this county. Some of these get the game and others hunt year after year and come back with nothing. Nevertheless each man wants the burning question settled definitely as to how many the law allows him to kill.

I. U. White, who is considered an authority on hunting because he sells so many guns and so much ammunition, wrote H. A. Rider about the matter at the same that the Dispatch asked the attorney general for a construction of the law. The executive agent of the state game and fish commission states definitely that one deer is all that each hunter may legally kill in the season. Mr. Rider's letter to Mr. White follows:

## Facts About Cole's Hot Blast Heaters

This is the only original HOT BLAST Stove. It has a heavy sheet iron jacket and two cast iron linings in the fire pot. The hot blast flue on top of the stove allows the carbon and gas which the burning coal forms, and as a result combustion takes place. In this manner NOT ONE PARTICLE OF COAL IS WASTED and you lose absolutely nothing by having good fuel escape in the form of smoke. Here is our proposition. John Carlson came to town yesterday with a string of fish which caused every sportsman's eyes to stick out of his head in astonishment. The trophy consisted of 15 black bass having a total weight of 60 pounds. They were caught by Mr. Carlson in North Long lake. To keep a permanent record of the catch he strung the 15 on a line and hung them between two trees in the depot park and had the string photographed. Many people viewed the fish in the park and at the store.

### Respected His Wishes.

Friend—Why do you get married so soon after the death of your husband? Widow—My dear, if there was any one thing that my poor dead and gone husband insisted upon, in season and out, it was that I should never put off till tomorrow what I could do today.

### GROWS HAIR ON BALD HEADS.

Bald-headed People May Get a New Chance in Life.

In these days when youth is the moving factor in business, when a man makes his mark at thirty-five and is ready to retire at forty-five, when business houses pension the man we call "middle aged" rather than allow his lagging influence to intrude upon the commercial rush, a bald head is almost fatal to any man's hopes. The following must therefore prove interesting to people who are losing their hair or who are bald.

Resorcin is one of the latest and most effective germ killers discovered by science, and in connection with Beta Naphthol, which is both germicidal and antiseptic, a combination is forced which destroys the germs which rob the hair of its nutriment, and also creates a clean and healthy condition of the scalp, which prevents the development of new germs.

Pilocarpin is a well-known agent for restoring the hair to its natural color, where the loss of color has been due to a disease of the scalp. Yet, it is not a coloring matter or dye.

This combination of curatives mixed with alcohol as a stimulant perfects a most effective remedy for hair and scalp troubles.

The famous Rexall "93" Hair Tonic is chiefly composed of Resorcin, Beta Naphthol, and Pilocarpin. It helps to make the scalp healthy, to nourish the hair, to stimulate the follicles. Where the hair is already bare, it enters the follicles, revitalizes the roots, supplies nourishment, and stimulates a new growth.

We want you to try a few bottles of Rexall "93" Hair Tonic, on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on bald heads except, of course, where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done to hundreds of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Remember, you can get Rexall Remedies in this community only at our store—The Rexall Store, Johnson's Pharmacy, 222 7th St. S.

### BRAINERD MEN GUESS

Piece of Ancient Vellum Brings out Modern Wit and Wisdom of Brainerd Men

That a group of Brainerd citizens caught on the sunnyside of the street these pleasant mornings of Indian summer can be as resourceful in repartee as a coterie of the Charles Lamb type, was in evidence this morning and caused a good deal of banter to pass from one to the other.

It appears that some four years ago the Rev. Charles Fox Davis discovered among a few things of the memento class which had originally belonged to his father and which he had brought with him to this countess-fifty years ago, somewhat russet-colored by use and containing many pockets. On opening one of the pockets he found a piece of amber-colored sheepskin, in size 16 by 16, with much writing thereon, but save the few Latin terms it contained which were written in larger form than the rest, it was undecipherable to him. A couple of years ago he had Professor Cundance of the Duluth high school look it over, one of the best Latin scholars in the state, but it was too much of a language mystery to him. He declared the manuscript to be several centuries old and worth presenting to the students of philology and etymology who spent their years in analyzing the terms, phrases and idioms relative to the evolution of the English language, even from the time when the race was supposed to be "a dumb and low herd."

This morning the Rev. Davis took the manuscript and sent it to a noted antiquarian of the state who had promised to get some professor who was well versed in the history of the media of communication and the growth of all language from the ideographic system until now, whom he had met this week in Minneapolis.

On his way to the postoffice he thought he would get the opinions of some of the Brainerd business and professional men that he might meet on the way there, and here are a few of the interpretations that were given without reference books or magnifying glasses:

John Cochran—"To my best belief it is a certificate giving authority in those early days to the barbers to bleed and leech certain customers when the tonsorial artists had those powers which are now tabooed by medical scientists."

Senator Johnson—"This my good sir is one of the two things: Ye ancient alchemists diploma, or an outline of some brilliant baronial after dinner speech, but much thumb worn with usage."

Rev. Allen and Rev. Sheridan were accosted together, and on being told that the professor had found it in his father's pocket-book, moralized and said: "We need more time to look into its hieroglyphic mysteries and orientalisms; but we are sorry to know that you took your father's pocketbook, and what did you do with the money?"

As they were looking at it and questioning the owner, up came H. I. Cohen and other gentlemen friends, H. F. Michael, R. R. Wise, Burnett, LaBar, Weilbacher and Dr. Camp, and here is a part of the bantering that took place: Cohen said: "It's an old fashioned insurance policy." His friend added: "It's a fire policy at that." H. F. Michael: "It's the advertisement of a 14th century business man who kept up with the time."

Burnett uttered: "It's a guarantee they used to give when the first watches were made; but the guarantee has evidently outlasted the watch." R. R. Wise, after placing his eye glasses exclaimed, "It is an old fashioned menu card of the ancient hostilities, but I find no wild duck or Crow Wing black bass written thereon." Rev. Allen in discovering the Latin terms, "Omibus" and "Sciat" in larger mould said, "Excuse me gentlemen, it's a free pass showing that the man had sciatie rheumatism and was given a free ride in the old fashioned omnibuses before the stage coach had arrived."

Dr. Camp, who had left his glasses in his office, asked some one to read it for him, which they refused to do for lack of time, said, "Well, the diplomas they give now to medical men on their graduation are different; sheep are so scarce that they cannot afford to cure their skins and get some mink in the cloister to write certain facts of certification thereon. We certainly ought to raise more sheep in Crow Wing county."

Geo. D. LaBar, after scrutinizing it in a quiet way said in a calm manner: "That's easy! It's simply a certificate of deposit on the First National bank of the Elizabethan age."

The printer's devil in the Dispatch office said it was the key to Doc. William's Minnesota U football signals. The last thing that happened to the manuscript was the tossing of the same, after being duly registered, into the letter receptacle of the new post office, the owner saying, "Well, postage is certainly cheap in the 14th century than in the 11th or 12th, and it goes a little swifter and surer."

### Didn't Hit Him.

John Wesley had a reputation for cheerfulness. In his journal he writes: "I preached in Halifax to a civil, senseless congregation. Three or four gentlemen put me in mind of the honest man at London who was so gay and unconcerned while Dr. Sherlock was preaching concerning the day of judgment. One asked, 'Do you not hear what the doctor says?' He answered, 'Yes, but I am not of his parish.'"

## GAINED STEADILY FROM THE START

"When baby was three weeks old we were compelled to take him from the breast. We vainly tried several infant foods, but he kept losing steadily until he was nothing but skin and bones and cried continually. The doctor put him on Mellin's Food, and he gained steadily from the start. He is now eleven months old, weighs twenty-two pounds, is a plump, gleeful child. He is now just beginning to walk, has ten teeth, sleeps well, and has gone through this dreadful hot weather without the slightest ailment."
